WHAT WE OFFER

Our team of specialists understand that it is crucial to be different and unique, that's why we offer a customised 3D stand design service. Bespoke renders can incorporate key features such as TVs, seating areas, literature holders and hanging structures. Our aim is to supply you with exactly what you want at a price which is right for you!

ROAD TO SUCCESS

Exhibitions and trade shows are one of the best ways of promoting your company's products and services. Your stand will therefore need to be a cut above the rest to make an instant impression, catching the eye of potential clients. Creating something that is highly impressive, 100% reusable and cost-effective is not always easy, but our flexible modular exhibition system offers all of this and more! Sections can be added or removed depending on the space available and fresh graphics can be produced for different events maximising your ROI.

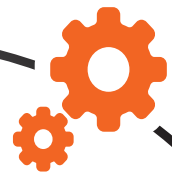

CONCEPTS & DESIGN SERVICES

After talking through your brief our CAD designers go to work creating a tailored stand solution, using the latest software. We often try and provide more than one design variation giving you features that will enhance your layout. This is then supported with a detailed quotation.

INSTALL & DISMANTLE SERVICES

Exhibiting can be stressful so why not let our team build your stand and then dismantle it after the show has finished? We understand however that not every budget allows for this so rest assured that all of our displays can be self-built with full instructions and packing lists supplied.

PRODUCTION & PRE-BUILD

Once your order has been confirmed we start work on manufacturing your stand. On completion we invite you to visit our Midlands premises for a full pre-build experience. It gives you a chance to see the display in all its glory and answer any questions you may have before the big event.

ONGOING SUPPORT & AFTER SALES CARE

Modular stands are designed to be reused so we can advise on how best to reconfigure your existing hardware/graphics for future events.

BACKWALL STRUCTURES

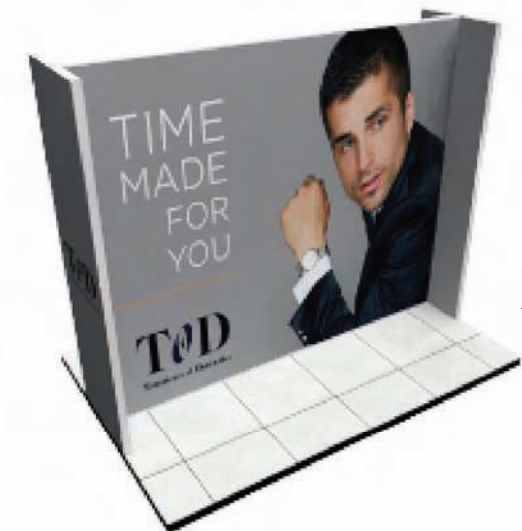

Simple backwall structures can be easily extended to suit the available space. They are supported in various ways, depending on your individual requirements.

L-SHAPE STRUCTURES

A popular choice for trade show exhibitors, perfect for corner spaces. L-shaped stands vary in size depending on the floor space available.

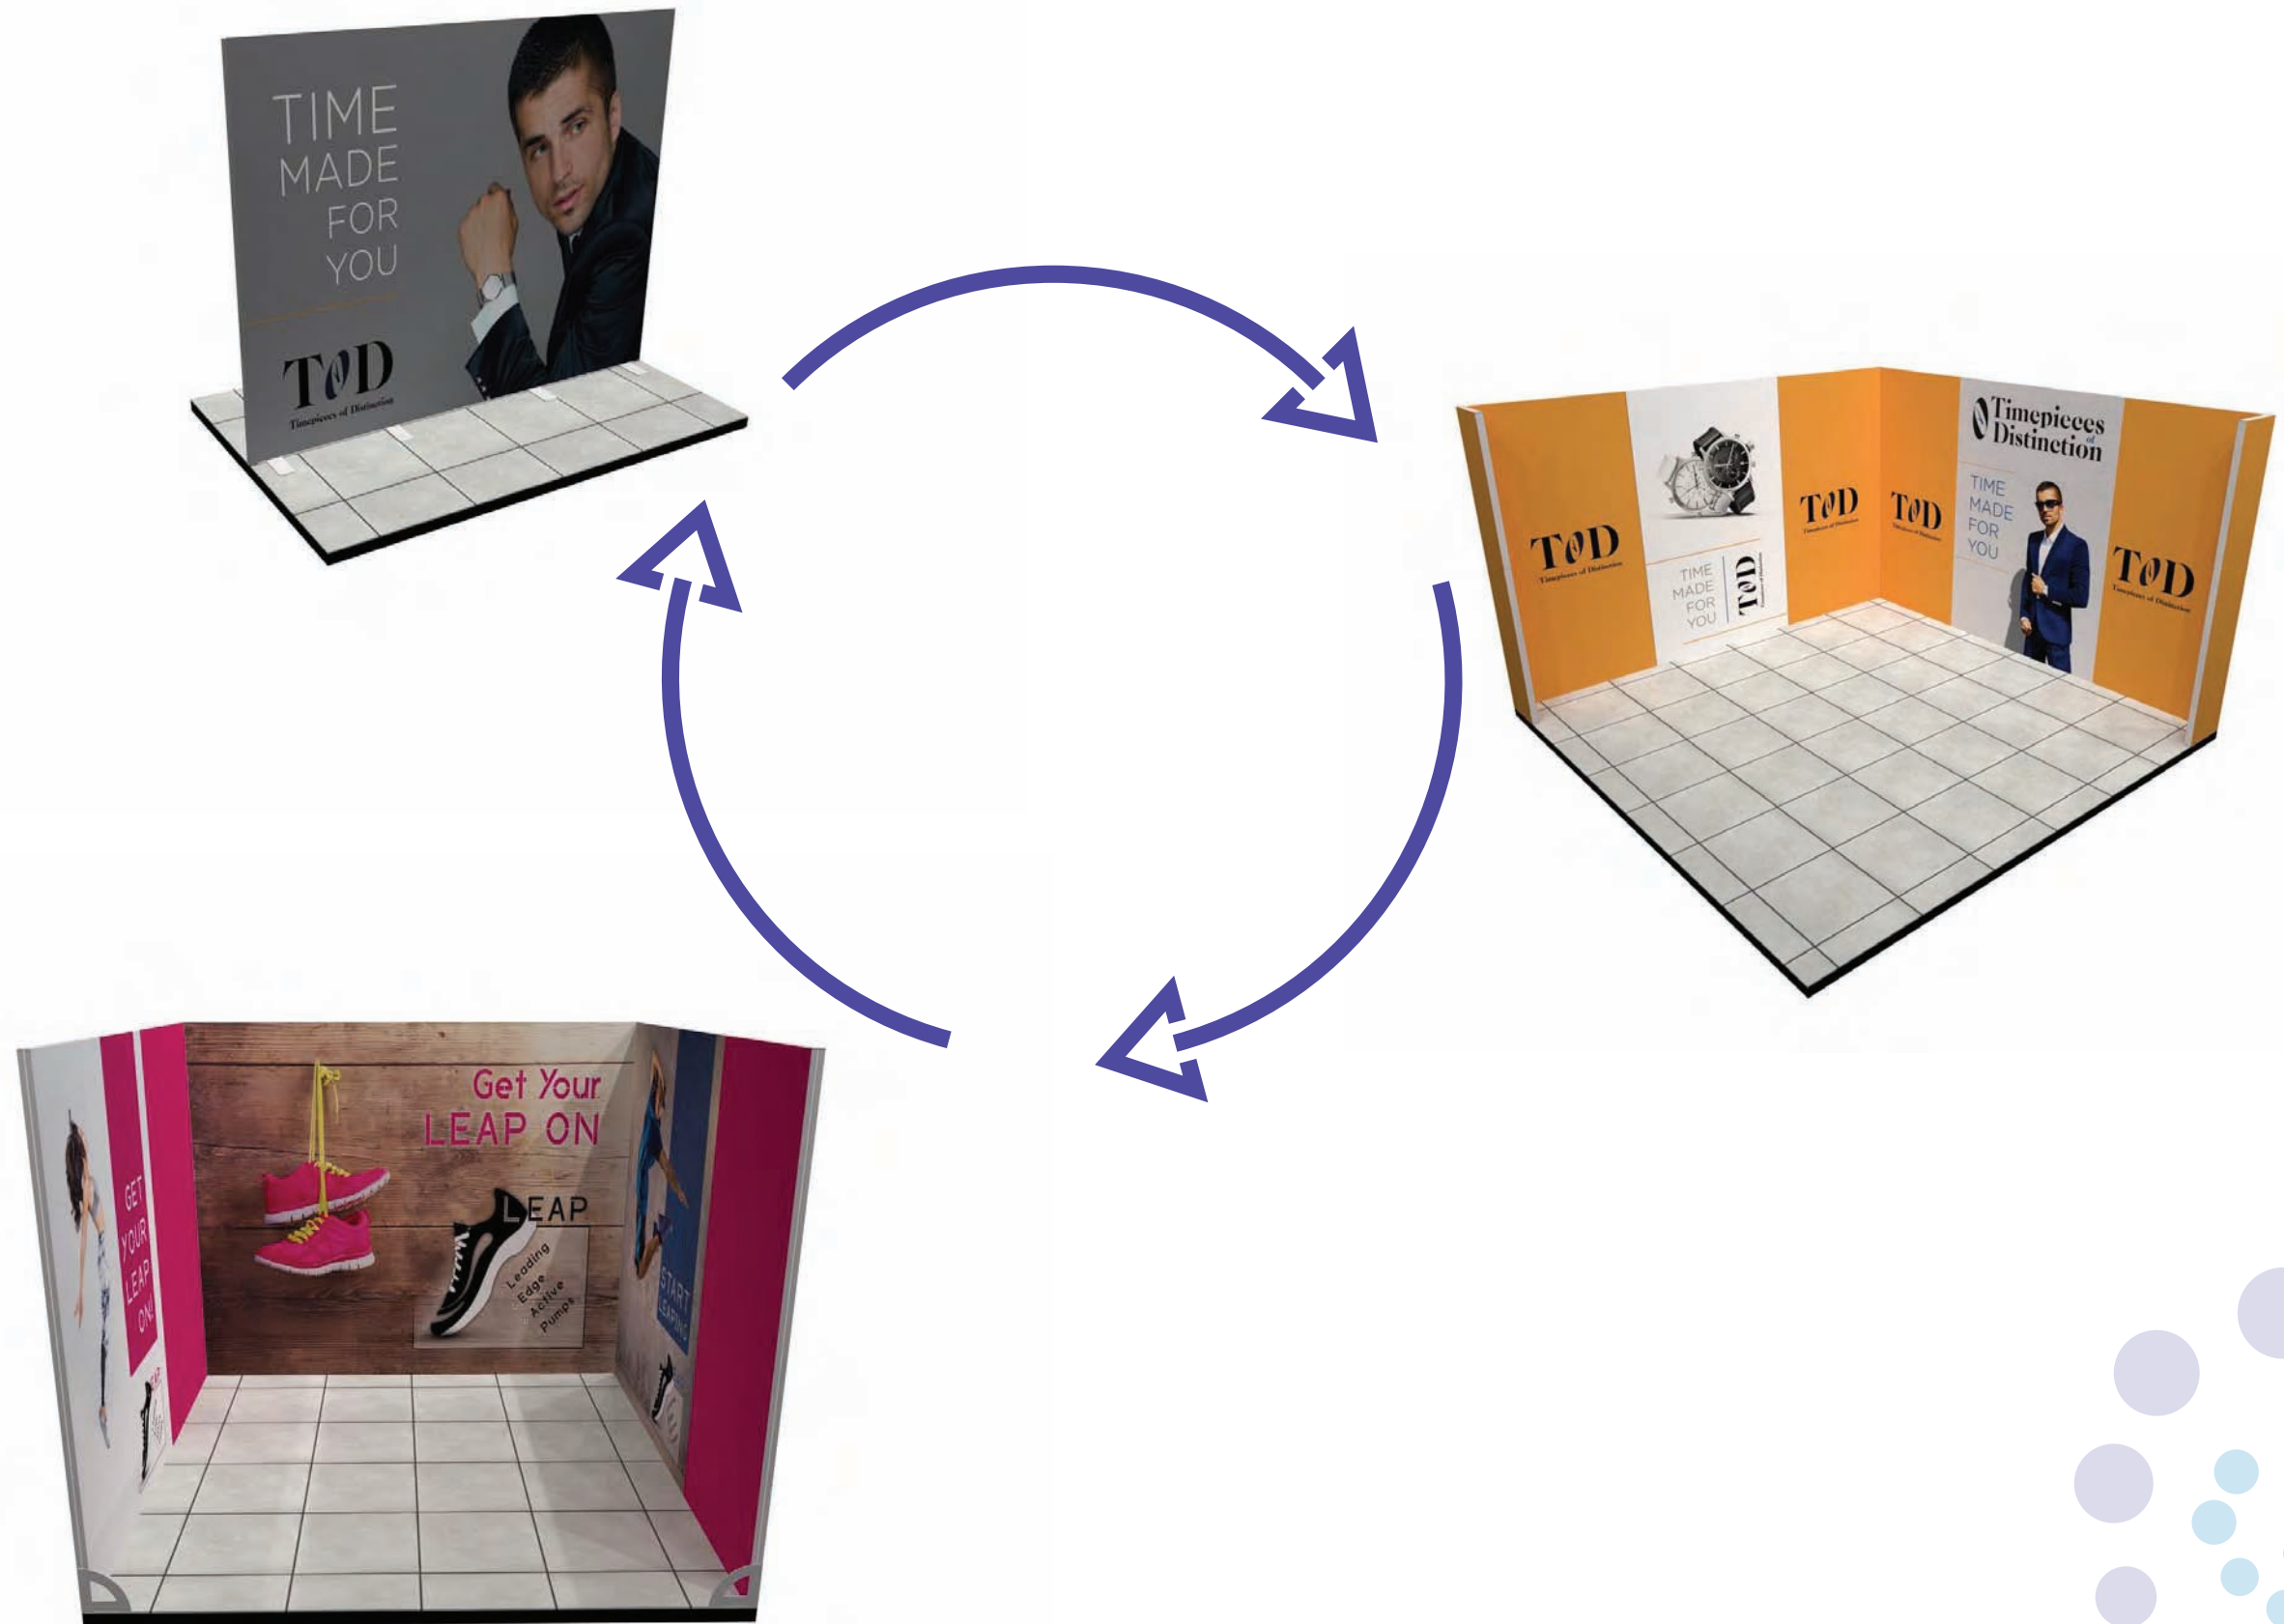

U-SHAPE STRUCTURES

Simple yet highly effective, U-shaped displays provide fantastic internal space incorporating a slim-line structure which is clad with vibrant, full colour fabric graphics.

STAND EVOLUTION

Modular stands can be reconfigured from small back-walls through to L-shaped stands into U-shaped configurations with minimal fuss.

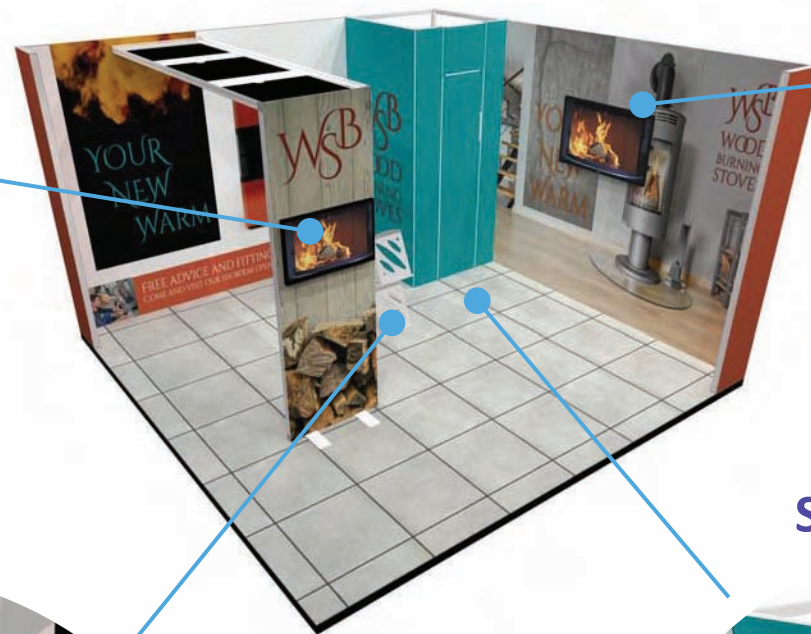

ACCESSORISE YOUR DISPLAY

With additional elements, your display can become more functional and impressive

Display arch

TV mount

Storage area

Literature rack

ILLUMINATE YOUR DISPLAY WITH LIGHTBOXES

Modular stands can have lightboxes incorporated into the design, as well as the addition of freestanding units

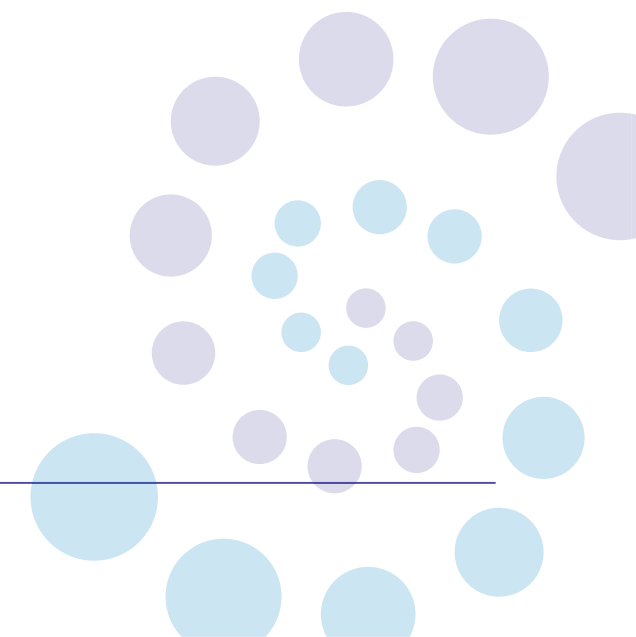

Incorporated into the design
